#### **Agenda Item 7    Intergovernmental Relations Reports and Administrative Services Update**

A. DCA Update – Judie Bucciarelli, SSML, DCA Executive Office

##### **Governor's 2025-26 Proposed State Budget**

Governor Newsom released his proposed 2025-26 State budget on January 10th, which included eight Budget Change Proposals (BCPs) for DCA's boards and bureaus. Additionally, DCA's vacancy reduction and government efficiency plans were approved by the Department of Finance and may be made official in the

Spring revisions.

The Governor remains committed to funding resources to address California's housing and homelessness crisis. Included in the Governor's proposed budget is the creation of a dedicated California Housing and Homeless Agency. The Department of Consumer Affairs and other regulators currently under the Business and Consumer Services and Housing Agency would form a Consumer Protection Agency.

This is an extraordinary opportunity for DCA to better align with other consumer protection entities as one Consumer Protection Agency. With a Consumer Protection Agency Secretary within the Governor's cabinet, this is an exciting opportunity that will only strengthen our mission, momentum, and delivery of services to California.

The Governor's reorganization proposal will be reviewed by the non-partisan Little Hoover Commission and the Legislature in the Spring. As more information is available, DCA will continue to keep board leadership updated.

#### **FORM 700 Filing Changes Effective January 1, 2025**

The Governor signed AB 1170 (Chapter 211, Statutes of 2024, Valencia), which requires board members to file their Form 700s electronically with the Fair Political Practice Commission (FPPC) using the FPPC's electronic filing system.

Effective January 1 of this year, DCA Board Members MUST file Form 700s through the FPPC's online system. Filings will no longer be filed via the NetFile portal that DCA board members have been using for many years. Additionally, paper filings will not be accepted.

On January 2<sup>nd</sup>, 2025, the FPPC emailed all board members with a link to the FPPC portal and login information. As a reminder, the Annual Form 700 Filing deadline is Tuesday, April 1, 2025. Please contact Board and Bureau Relations with questions regarding the new requirements at [MemberRelations@dca.ca.gov](mailto:MemberRelations@dca.ca.gov).

#### **President's Training – February 19, 2025**

DCA invites presidents and vice presidents to attend our annual President's training on February 19, 2025, from 10:00 am to 12:30 pm. This virtual training is for board members who are new to the role of president or vice president, and those who have served in the role for a year or more. The training will review the role of a board president, communication best practices with the Executive Officer and board members, as well as the President's administrative duties. It also includes a panel of prior board members who will share their knowledge and expertise, and answer questions from attendees. Learning from each other is a large part of this training and we look forward to seeing all presidents and vice presidents. Please register online using DCA's Learning Management System also referred to as LMS.

#### **Board and Bureau Relations Team**

An update regarding DCA's Board and Bureau Relations Team. Yvonne Dorantes served as the Assistant Deputy Director of Board and Bureau Relations since

October of 2022. On December 6, the Governor appointed Yvonne as the Assistant Deputy Director of Legislative and Government Affairs at the California Governor's Office of Emergency Services. Yvonne's last day at DCA was December 31. We appreciate Yvonne's dedication to the Board and Bureau Relations team and wish her well in her new role.

**Message from the Director**

Director Kirchmeyer would like to thank the Board and the staff for their hard work and partnership last year. She is excited about 2025 and the many opportunities that await us. Your dedication to protect CA consumers is appreciated.

Discussion and Possible Actions on Rulemaking Proposal to Amend Sections 1635, 1636, 1638, 1641, 1646, 1659.30, 1659.31, 1659.32, 1659.33, 1659.34 and 1659.35 and Repeal Sections 1639 and 1640 in Title 16 of the California Code of Regulations (16 CCR) (Requirements for Continuing Medical Education and Citation and Fines) - Terri Thorfinnson, Administrative Services Program Manager and Kristy Schieldge, Attorney IV, Legal Affairs Regulations Unit, DCA

**A. Consideration of Public Comments Received During the Public Comment Period and/or Hearing and Proposed Responses Thereto**

Ms. Thorfinnson provided an overview of the memo and all its attachments that the members would be reviewing which included the Board's original proposed text and repealed forms and documents added to the rulemaking file. These included the repealed AMA CME Guide, the repealed AOA CME Guide, an addendum to the initial statement of reasons (ISOR) which provides the rational for new proposed language recommendations, and a copy of Assembly Bill (AB) No. 487. In addition, the packet included a copy of the notice of hearing on proposed regulations, a copy of the certified hearing transcripts, and all of the regulatory comments received during the

public comment period with proposed staff responses at Attachments 3-5). Attachment 6 included a clean copy of the modified text and Repealed CME Guides, which the Board needs to review and approve at this meeting. Ms. Thorfinnson turned it over to Ms. Kristy Schieldge to add anything to the overview.

Ms. Schieldge explained that overall there were two issues that the members needed to look at. The first being the comments that were received during the public comment period and staff summaries of these comments along with staff proposed responses to the comments. If members agree with the proposed responses the members would need to make a motion to approve the responses to include them in the rulemaking file. The second is a consideration for a possible language change to the text that was originally noticed that was covered in Attachment 6.

Ms. Thorfinnson explained to the members that Board staff was proposing a rejection of all CME comments but proposing some modified text and the reason behind the rejection was that all comments included mainly policy changes that would require a statutory change since the CME requirements are written in statute and not in regulations and the Board's intent behind this regulatory packet is to align our regulations with our current statutory requirements.

Ms. Thorfinnson proceeded to explain the 45-day public comment period process to the members and explained that the Board received a request for a hearing during this comment period which the Board granted and furthermore extended the written comment period to allow for the Board to accept written public comment up until the day of the public hearing until 12 p.m. Ms. Thorfinnson then proceeded to direct the members to the comments received as set forth in the meeting materials and the staff's suggested responses.

At this point Ms. Thorfinnson asks if there are any questions from the members and after seeing none, she turns to Ms. Schieldge to see if this would be the appropriate time for the Board to make a motion. Ms. Schieldge verified that there were no questions from the Board and proceeded to direct the members to page fifteen of their meeting materials memo.

Madame President called for a motion to approve the proposed regulatory language.

Dr. Brett Lockman, Board Member made the following motion, which was seconded by John Cummins, Board member:

*Direct staff to proceed as recommended to reject the adverse comments as specified and provide the responses to all comments as indicated in the staff recommended responses as set forth in the meeting materials.*

Dr. Mathew Swain commented that before the Board moves to vote that he wishes to address the concerns coming from the directors of OPSC in comment seven regarding the expansion of the cite and fine authority. Ms. Schieldge explained that the Board is limited on the types of violations it can issue a citation and fine for because current regulations have a "punch list" of citable violations. Ms. Schieldge further explained that Business and Professions Code Section 125.9 allows the Board to issue a citation for any violation of the applicable licensing act or any regulation adopted by this board. In

her experience, most of the boards and bureaus at this Department are going in the direction of allowing their Executive Officer, Executive Director, or Bureau Chief to have the authority to exercise their discretion in determining whether to issue a citation and fine to allow for a lower-level opportunity to resolve a violation. So, for items that are not on the citable violation list the Board would currently only have the option of going directly to discipline to correct the violation.

Ms. Schieldge further explained how older Boards including the Medical Board of California have recently moved away from old policy of having a list of citable violations and currently have their citation and fine regulations say they have the authority to issue a citation and fine for any violation of any law or regulation or under their jurisdiction. Ms. Schieldge stated that the Medical Board of California adopted this new regulation last year after it was approved by the Office of Administrative Law. Ms. Schieldge pointed out that these same concerns were raised by CMA, and the answer really is that the Board's Executive Director is under your supervision and control, and if there are any issues raised with the exercise of the Director's discretion, the Board ultimately has the as to whether to uphold any citation issued by the Director. So, if the Executive Director ever issued a citation that the Board didn't agree with, the Board could simply dismiss it and then the Board would give direction to the Director and Board staff as to how the Board would like staff to consider those cases going forward in its decision. In addition, the proposal contains factors that the Executive Director must apply in every case that sets the Board's policy as to how the Director decides when to issue a citation and fine. The other matter raised by Ms. Schieldge was that the Board has the authority to issue fines up to \$5000 for each violation and this Board has decided in this proposal that they're only going to issue fines up to \$2500 for most violations and only under certain exceptional circumstances would the fine go up to \$5000.

Dr. Matthew Swain responded that he believed that the responses given personally answered his question, and he feels that he understands the process and how this can avoid having to go straight to discipline which can have greater implications to physicians.

The motion was re-confirmed that Dr. Brett Lockman moved and John Cummins seconded the following motion:

*Direct staff to proceed as recommended to reject the adverse comments as specified and provide the responses to all comments as indicated in the staff recommended*

*responses as set forth in the meeting materials.* No comments from the public in attendance.

Public comment online received by Alicia Sanchez from the California Medical Association (CMA). Ms. Sanchez stated that she was speaking on behalf of the California Medical Association, and she would like to thank board staff for taking the time to review and respond to their comments and for the discussion today. CMA recommends that the Board maintain the established list of citable offenses. CMA believes that getting a clear list of statutes and regulations eligible for citation and fine would provide physicians and consumers with more transparency about how the board will handle specific deviations

from the law. For this reason, we ask the board to reconsider using a specific list of statutory and regulatory code sections eligible for citation and fine if violated.

Dr. Brett Lockman proceeds to ask if the Board could clarify if the amendments to 1659.33 include citations for unlicensed practice. Ms. Schieldge advised that the proposed language would only delete existing text that limited the Board's unlicensed activity authority to those who have allowed their licenses to lapse. So, what that means is, with this proposed change (and this is consistent with the California Medical Board and other boards in this Department), anyone that's practicing medicine without a license is potentially subject to citation and the citation amount is \$5000. After continued discussion between Ms. Schieldge, Ms. Thorfinnson and Ms. Calderon to clarify the Boards limitations to unlicensed practice Dr. Brett Lockman confirmed that his motion stands.

Ms. Pines requested that Ms. Chong once again call roll for a vote on the motion on the table.

Ms. Chong called role and the votes are recorded as the following:

- Gor Adamyan-Aye
- John Cummins-Aye
- Dr. Lockman-Aye
- Andrew Moreno – Aye
- Denise Pines – Aye
- Dr. Swain – Aye

B. Discussion and Possible Action to Consider Adoption of Proposed Amendments to 16 CCR Sections 1635, 1636, 1638, 1641, 1646, 1659.30, 1659.31, 1659.32, 1659.33, 1659.34 and 1659.35 and Repeal of 16 CCR Sections 1639 and 1640.

Ms. Thorfinnson proceeded to explain that the second motion includes two parts: adding repealed documents back to the rulemaking file that were missed when going out for public comment and approving modified text. Ms. Thorfinnson pointed out that a concern was raised by a board member about the current language related to out of state practice and being eligible for an exemption from CME for pain management. Upon review by staff and Regulations Counsel, Board staff wanted to narrow and clarify language that further defined who should really be eligible.

Ms. Schieldge further discussed AB 487 that enacted the pain management course at Business and Professions Code section 2190.5 and gave the Board the authority to establish exemptions; the exemption list included physicians that do not reside in California. However, there was nothing in the legislative history for AB 487 that she could find that documented why this exemption was given and no concerns were brought up while the legislation was going through about those physicians who may be practicing telehealth since telehealth was not much of a big deal in 2001 as it is today. Furthermore, Ms. Schieldge explained how the Board's telehealth statute at Business and Professions Code section 2290.5 was actually enacted a decade later and it made no reference to this earlier-enacted statute, the discretionary exemptions in Section

2190.5 were never revisited, and the statute may not have contemplated that the Board would have out-of- state physicians treating California patients via telehealth.

Ms. Schieldge thanked Board member John Cummins for bringing this matter to the Board's attention. To make sure that there is no disparate treatment between physicians that are practicing in California providing the same services as those physicians that are out of state, Board staff is proposing that the language be amended to limit the exemptions to physicians that are not providing direct patient care. She advised the Board to review page 17, which refers to physicians not engaged in direct patient care, meaning direct patient care being provided either by face-to-face interaction with a patient located in California or personal contact with a patient located in California. Then the proposal lists examples of the kinds of treatments and interactions considered direct patient care. Then there's a definition proposed to be added for personal contact which shall include communication by any method of direct interaction with the patient or via telehealth.

These changes should address the problem identified and ensure consistent application of the exemptions. The modified text would clarify that if you're not providing patient care to a California patient, wherever you reside, you're exempt. So, the Board would be treating people in state and out of state the same way depending on the kind of care they're providing to California patients. Ms. Schieldge explained that the intent of the proposed amendments is to address this loophole. Ms. Schieldge reviewed the amendments, line by line, starting on page 17 as set forth in the meeting materials.

Madame President Pines called for a motion. Board Member John Cummins made the following motion, which was seconded by Dr. Mathew Swain:

*To approve the documents added to the rulemaking file in Attachment 2 and the proposed modified text in Attachment 6 and direct staff to take all steps necessary to complete the rulemaking process, including sending out the modified text and notice of the addition of documents added to the rulemaking file for an additional 15-day comment period. If after the 15-day public comment period, no adverse comments are received, authorize the Executive Director to make any non-substantive changes to the proposed regulations and the rulemaking documents, and adopt the proposed regulations as provided in the modified text in Attachment 6.*
