

MEMORANDUM

DATE	November 13, 2025
TO	Board Members
FROM	Machiko Chong Licensing Program Manager
SUBJECT	Agenda Item #10 – Licensing Program Summary <i>Attachments 10a & 10b</i>

Licensing Statistics & Program Review

Attachments 10a & 10b reflect the licensing population and application stats for the first quarter of the 2025/26 Fiscal Year. Currently, there are 17,012 licensed osteopathic physicians and surgeons; 1,695 postgraduate training licensees (PTL); 1,369 fictitious name permits; and no Temporary Osteopathic physician and surgeon license. With the application process converting from paper to exclusive electronic submission in the 2022/23 Fiscal Year and the Board experiencing a parallel backlog as a result of the manual keying of applicant data. Nonetheless, there are 312 pending initial applications with 48 of those requesting expedite services. The application breakdown is as follows:

Application Stats

- Postgraduate Training License (*65 applications*)
- Osteopathic physician and surgeon (*247 applications*)

Expedite Service Requests

- Medically Underserved Area (*37 applications*)
- Military Veteran (*11 applications*)
- Abortion Services (*1 application*)

Director Calderon noted in her report that the Board went through a reorg in February, resulting in the Licensing Unit graciously receiving the redirect of three (3) board staff (Sanjay Naresh, Jaime Nichols, and David Moran). Over the past 2 months I've worked with staff to update CME Compliance and Fictitious Name Permit (FNP) documents as well as revise certain aspects of our BreEZe VO transactions to ensure that the Board is following legislative and regulatory mandates. Staff will soon begin

completing UAT testing, to verify that all requested revisions have been completed within the VO Transactions for initial and renewal applications for the following:

- **PTL applications (online)–**
 - Licensee pocket license self-query via BreEZe Portal
- **Physician and surgeon application (online) –**
 - Removal of Postgraduate Training modifier placement*
 - Update to Information Privacy Act and Attestation language
- **Physician and surgeon Renewal Application (online) –**
 - Removal of hold placed on licensee profiles for 36-month compliance*

Ideally, if time permits I would also like to go through the review and revision of the Fictitious Name Permit application (initial) so that we are able to go live by Q2 of FY 25/26.
