Agenda Item 14

Osteopathic Medical Board of California

DATE REPORT ISSUED: November 5, 2026

ATTENTION: Members, Osteopathic Medical Board of California
SUBJECT: Executive Report

STAFF CONTACT: Ralph Correa, Probation Monitor

REQUESTED ACTION:
This report is intended to provide the Members of the Osteopathic Medical Board of California (Board) with an update on the probation program. No action is needed.

Total Numbers of physicians on probation

As of today's date, there are 34 licensees on probation.

Four are tolling out of state and are not receiving credit towards completion of probation. 30 probationary cases are being monitored and are practicing medicine in California.

Three physicians have received public letters of reprimand and are being monitored for completion of course activity and or fines.

Review of cases

Quarterly reviews are conducted both in person, via zoom or telephone with each physician to discuss their specific terms and conditions. All information and all documents are being analyzed, recorded and documented in a full report. The Board's Probation unit has maintained an effective and thorough accountability of our physicians on probation.

Non-Compliance

One physician remains on a cease practice order. Failure to successfully complete the course/program within the time specified in their order will result in further disciplinary action, including a petition for revocation of their physician and surgeons' license.
