

Medi-Cal Enrollment Requirement for Healthcare Providers

Starting in mid-2026, the California Department of Health Care Services (DHCS) will begin enforcing the Medi-Cal provider enrollment requirement for prescribers.

As a reminder, healthcare providers who initiate prescriptions must enroll in Medi-Cal. This includes all ordering or referring physicians and other professionals who provide services under the State Plan.

Providers who are not enrolled are strongly encouraged to enroll immediately to avoid potential processing delays and non-payment of claims.

For more information and how to enroll, please read the [Medi-Cal Enrollment Requirement Reminder](#).
